Meet the Students

www.truman.edu

How would you describe your professors?
My professors have been very nice, and they are all so wise. They are very welcoming to international students, and they strive to help all their students do and be better, which makes learning from them enjoyable.

What has been your favorite class so far?
I am really enjoying my public design class! It has been interesting learning how to create and design magazines, cards, and so much more. I enjoy this class because there is not a huge focus on writing or reading, but more on creatvity. It has been awesome learning how to use the InDesign program to be able to create all of my various design projects.

What is your favorite thing about Kirksville?
Kirksville is a peaceful little town that makes me feel like I am home. Its small size makes seeing all of my friends on campus easy, and you can always find something fun to do here.

How has a Truman education prepared you for your career?
I have gotten a lot of real-world experience from working on campus. In the Communication Department we have a radio station, travel magazine, news channel, and a student newspaper. Truman does not just ask students to learn, but also asks us to apply what we have learned.

Kai-Ting Ko

Major: Communication

Campus Involvement: International House, Campus Christian Fellowship

Country: Taiwan

High School: Zen Del Senior High School

Pursue Your Dreams.
