

Weekly Diary (7/1~7/5)

It's first time for me to take plane from Taiwan to America. I pretty looked forward to visiting America, and my mood of excitement was on the increase. When we arrived at the destination, Nathan, John, and Daniel had appeared in front of the gate. I thought that they were very accommodating. I felt too tired, so I slept quickly when entering the dormitory.

The first day, we understood our teaching assistants, and the dormitory's devices. Compared America's dormitory with Taiwan's. The former was bigger than the latter. We also ate in cafeteria. My favorite drink was chocolate mixed ice cream. We went to the Walmart, and I bought some fresh food. Due to I liked to cook, so when we came back to the dormitory. I cooked porridge with Peter. It was great.

The second day, we played Frisbee. Nathan was good at this game. He also taught us how to play. I hope that I could play again in America in the future. I also cooked Taiwan's food, the teacher taught the skill. It was delicious. I got achievement by cooking this time.

The third day, we played capture the flag. We won the game. Although we felt tired, we had a lot of fun. And we watched the fireworks at night, because today was America's independent day that was extremely vital for America.

The forth day, we studied in class. Ron was kind. Our homework was difficult. We had to interview the American. They were nice. I thought it was helpful for us.

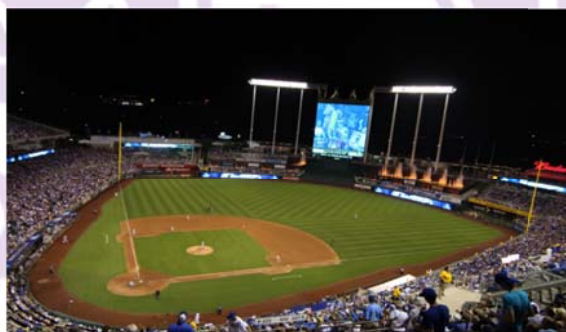

Weekly Diary (7/6~7/10)

In July 6th, in class, Ron described the history of Kansas. Although I was not interested in history. I had understood the Kansas. We also discussed our interview. Maybe it was first time for me to interview a foreign, so I was not familiar with doing it. Today was a wonderful day . I got a lot of new knowledge.

In July 7th, We went to the library to borrow English book. It was a little difficult. I seldom read the English book, but I would do my best. We also sign making for watching KC baseball game. I hope that our sign would be seen tomorrow.

In July 8th, after studying, we went to Kansas City to watch baseball game. Before arriving the destination, we checked in the hotel. In KC Royal, I bought some souvenirs. I regard them to my treasures, because it was my first time to go to Major League. Even though the KC lost, we still felt satisfied.

In July 9th, we went to Q39 to eat sandwich for lunch. It was the most delicious than I ate before. And then, we went to Country Club Plaza to go shopping. I bought the bag for my mom, sharing coffee of Starbucks with Nathan. It was a good experience, because I seldom bought by myself in America.

In July 10th, we played basketball and Frisbee. Willy got hurt while playing basketball. It was unfortunate. In the afternoon, a lot of JBA members came to the university, not to mention, it will be crowded when we eat in cafeteria. We also ate pizza for dinner, and watched TV show named “ The Walking Dead.”

Weekly Diary (7/11/~7/17)

Looking back on last week, I did lots of things for the first time. Like did the presentation, dancing party, and so on. Doing the presentation was enormously difficult for me. Because it was an English website, I was not good at reading a article.

Thanks to my presentation members, our presentation was successful. I have been familiar with Florida by this time. Many views that I want to visit. On Saturday, we went to Columbia Mall. I compared this mall with last's, the former was smaller than the latter. So

I just bought some shirts. After shopping, we went to Chinese restaurant named Nurhachi. It was toothsome. But Tomas and I took fruits that were not allowed. Thanks to John, we didn't need to pay money. After we came back to the Mo Hall, we took a part in the JBA dance. At the beginning of the dance, we felt very strange. The girl named Emma that really welcomed us. We made friends and had lots of fun finally. We also had lunch Emma on Sunday. She was very interesting. We also went to the 1000 hills state park to take a picnic with other people. I ate a chicken barbecue that was cooked by Kevin. I thought that he was good at cooking, because the foods were very juicy. We played the toss games with Jared. These games were impressing because we haven't seen in Taiwan. We had lots of fun last weekend. I also looked forward to traveling of St. Louis. There was no denying that I will buy lots of souvenirs in here.

Weekly Diary (7/118/~7/24)

Last week, we did the second presentation that was about Taiwan in class. Ron and preceptors were interested in culture of Taiwan. When it comes to Taiwan, the food was the best. So I introduced the food of night market while I was reporting.

On weekends, we went to St. Louis to go the Gateway Arch. When we arrived the highest place, the Mississippi river was under the arch, the view was beautiful. And we went to the science museum. We could understand the geography by operating the devices, it was very meaningful. We had lots of fun from here.

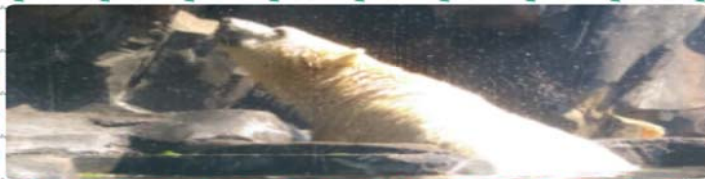

We also went to St. Louis zoo, a variety of animals that I haven't seen. I felt really excited. I also took pictures with lots of animals. The park of snakes was my favorite, it was a pity that I couldn't touch it. I enormously wanted to come again, because the zoo was too big to see all animals.

And then, we went to Galleria Mall to shop, I spent about NT1000 dollars buying souvenirs. I felt satisfied. After shopping, we ate dinner at Cici's Pizza. There had lots of pizzas, like pepperoni, turkey, basil, and so on. I liked it very much, but the environment was a little dirty. We also went to the Meramec Cave to explore the cave. Lots of strange rocks like stalactite and stalagmite, they were beautiful. I thought that we

had few chances to see in Taiwan, so I felt fortunate. We ate Mexico food for dinner. It was first time to eat. I didn't know the food of characteristic. After eating, I thought that was delicious. It was the last time to visit other city. We will come back to Taiwan next week. I have felt sad.

THE WONDERFUL WEEK!!
